

Novra Technologies announces new board members

Novra Technologies Inc. (NVI:TSX:Venture), a provider of broadband technologies for satellite, cable and wireless networks, announced that its shareholders elected two new board members at its last Annual General Meeting held on June 20, 2003. Mr. Peter Wintemute has been elected as board member and Mr. David Wolinsky has been appointed Chair.

Mr. Wintemute FCA, has been the Chairman and CEO, since 1975, of Wintemute, Randle, Kilimnik, Chartered Accountants, predecessor to The Exchange Group which is comprised of The Exchange Chartered Accountants, The Exchange Consulting Group, EXG Business Solutions Inc and 123 Bannatyne Avenue Inc. Mr. Wintemute is a current director of Pet Plan Insurance, Health Investment Management Worldwide Inc, 75 North Corp and other Manitoba corporations. Mr. Wintemute has served as a director of the Manitoba Public Insurance Corporation for 13 years up to 2000 and has chaired the audit committee during that time.

Mr. Wolinsky is the Chairman of Protos International Inc., Maple Leaf Distillers Inc. and Salisbury House Restaurants of Canada Inc. and one of the founders/developers of some of Winnipeg's leading restaurants such as Green Gates Country House and 529 Wellington. Mr. Wolinsky is one of Canada's leading entertainment lawyers representing such artists as the Guess Who, B.T.O. and Tom Jackson. Mr. Wolinsky has extensive experience with public companies in both Canada and the United States and has played a leading role in Manitoba's community, charitable and educational arenas.

Mr. Wolinsky, Chair, stated, "I am delighted to join the extremely talented people involved with Novra, and I am looking forward to what I believe will be a remarkable year for this company."

About Novra

www.novra.com

Novra Technologies offers premium broadband products, applications and services centered on DVB-IP and multicasting technology. Current products include the S75 and C75 (high-throughput, cost-effective DVB satellite and cable receivers), the CEM100 (a DVB-C compliant encapsulation and modulation appliance), DisseMedia (a multicast file server technology) and the SSP100 (a broadband media store and play appliance).
